Nob Hill Water Association

Edition 42

## SAVE WATER & MONEY

Did you know that some high water bills are caused by leaks in toilets? Some of these leaks you can see and hear, but many are **silent**. These leaks can waste hundreds of gallons of water per day! In an effort to SAVE water AND money, Nob Hill Water is now providing toilet tank leak detecting dye tablets—free of charge in our office. Can't make it into the office? Then just give us a call and we'll drop the tablets, and directions on how to use them, in the mail to you.

## Don't Freeze!

**Don't let that backflow device freeze this winter.** Make sure the device is removed for the winter, or is properly protected against the freezing weather soon to return. If the device is not properly stored, it will NOT pass the annual test and will need to be replaced.

## WAY TO GO!!!!

Nob Hill Water Association has completed the first phase of the Scenic Drive replacement plan. The second phase will consist of main line replacement from approximately Cobblestone Place to 47th Ave. We will be scheduling the second phase to begin in October.

A special thank you to our customers along Scenic Drive whose patience and understanding made this difficult job a much more pleasant task. Our customers are awesome!

Once the second phase begins, there will be flaggers on site and potential traffic delays. If possible, avoid the area mentioned or allow extra time in your commute.

It is our continued mission to provide the best quality water service; replacing the main line and services will effectively help us accomplish this goal. If you have any questions, please feel free to call our office.
